Clause No. 13
Clause Heading Term
Sub-Clause No.

.1 **Commencement of services:**

The Supplier may commence execution of the Works on the Start Date and shall carry out the Works in accordance with the Program submitted by the Supplier, as updated with the approval of the Project Manager, and complete them by the Intended Completion Date.

.2 **Extension of time:**

(a) The Project Manager shall extend the Intended Completion Date if a Compensation Event occurs or a Variation is issued which makes it impossible for Completion to be achieved by the Intended Completion Date without the Supplier taking steps to accelerate the remaining work, which would cause the Supplier to incur additional cost.

(b) The Project Manager shall decide whether and by how much to extend the Intended Completion Date within 21 days of the Supplier asking the Project Manager for a decision upon the effect of a Compensation Event or Variation and submitting full supporting information. If the Supplier has failed to give early warning of a delay or has failed to cooperate in dealing with a delay, the delay by this failure shall not be considered in assessing the new Intended Completion Date.

.3 **Acceleration:**

(a) When the Purchaser wants the Supplier to finish before the Intended Completion Date, the Project Manager shall obtain priced proposals for achieving the necessary acceleration from the Supplier. If the Purchaser accepts these proposals, the Intended Completion Date shall be adjusted accordingly and confirmed by both the Purchaser and the Supplier.

(b) If the Supplier’s priced proposals for an acceleration are accepted by the Purchaser, they are incorporated in the Contract Price and treated as a Variation.

.4 The Supplier shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Contract.
Termination by fundamental breach of contract

The Purchaser or the Supplier may terminate the Contract if the other party causes a fundamental breach of the Contract. Fundamental breaches of Contract shall include, but shall not be limited to, the following:

(a) The Supplier stops work for 28 days when no stoppage of work is shown on the current Program and the stoppage has not been authorized by the Project Manager;

(b) The Project Manager instructs the Supplier to delay the progress of the Works, and the instruction is not withdrawn within 28 days;

(c) The Purchaser or the Supplier is made bankrupt or goes into liquidation other than for a reconstruction or amalgamation;

(d) A payment certified by the Project Manager is not paid by the Purchaser to the Supplier within 84 days of the date of the Project Manager’s certificate;

(e) The Project Manager gives Notice that failure to correct a particular Defect is a fundamental breach of Contract and the Supplier fails to correct it within a reasonable period of time determined by the Project Manager;

(f) The Supplier does not maintain a Security, which is required;

(g) The Supplier has delayed the completion of the Works by the number of days for which the maximum amount of liquidated damages can be paid, as defined in the SCC; or

(h) If the Supplier, in the judgment of the Purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the Contract, pursuant to fraud and corruption.

When either party to the Contract gives notice of a breach of Contract to the Project Manager for a cause other than those listed under GCC Sub-Clause 14.1 above, the Project Manager shall decide whether the breach is fundamental or not.

Notwithstanding the above, the Purchaser may terminate the Contract for convenience.

If the Contract is terminated, the Supplier shall stop work immediately, make the Site safe and secure, and leave the Site as soon as reasonably possible.

Payment upon Termination

(c) If the Contract is terminated because of a fundamental breach of Contract by the Supplier, the Project Manager shall issue a certificate for the value of the work done and Materials ordered less advance payments received up to the date of the issue of the certificate and less the percentage to apply to the value of the work
not completed, as indicated in the SCC. Additional Liquidated Damages shall not apply. If the total amount due to the Purchaser exceeds any payment due to the Supplier, the difference shall be a debt payable to the Purchaser.

(d) If the Contract is terminated for the Purchaser’s convenience or because of a fundamental breach of Contract by the Purchaser, the Project Manager shall issue a certificate for the value of the work done, Materials ordered, the reasonable cost of removal of Equipment, repatriation of the Supplier’s personnel employed solely on the Works, and the Supplier’s costs of protecting and securing the Works, and less advance payments received up to the date of the certificate.
Modification: Modification of the terms and conditions of this contract, including any modification of the scope of the service, may only be made by written agreement between the parties. Pursuant to sub-clause .9 of “Interpretation” Clause GCC hereof, however, each party shall give due consideration to any proposals for modification made by the other party.

Introducing a Change: Purchaser shall have the right to propose, and subsequently require, the Project Manager to order the Supplier from time to time during the performance of the Contract to make any change, modification, addition, or deletion to, in, or from the Service (interchangeably called “Change”), provided that such Change falls within the general scope of the work, does not constitute unrelated work, and is technically practicable, taking into account the capability of the Supplier.

The Supplier may from time to time during its performance of the Contract propose to the Purchaser (with a copy to the Project Manager) any Change that the Supplier considers necessary or desirable to improve the quality or efficiency of the Service. The Purchaser may at its discretion approve or reject any Change proposed by the Supplier.

Notwithstanding sub-clauses .2 and .3 of this clause GCC, no change made necessary because of any default of the Supplier in the performance of its obligations under the Contract shall be deemed to be a Change, and such change shall not result in any adjustment of the Contract Price or the Time.

Assignment: Neither the Purchaser nor the Supplier shall, without the express prior written consent of the other, assign to any third party the Contract or any part thereof, or any right, benefit, obligation, or interest therein or hereunder, except that the Supplier shall be entitled to assign either absolutely or by way of charge any monies due and payable to it or that may become due and payable to it under the Contract.
D. PAYMENT

Clause No. 16
Clause Heading Price
Sub-Clause No.

.1 Contract Price:
(a) In the case of an admeasurement contract, the Bill of Quantities shall contain priced items for the Works to be performed by the Supplier. The Bill of Quantities is used to calculate the Contract Price. The Supplier will be paid for the quantity of the work accomplished at the rate in the Bill of Quantities for each item.

(b) In the case of a lump sum contract, the Activity Schedule shall contain the priced activities for the Works to be performed by the Supplier. The Activity Schedule is used to monitor and control the performance of activities on which basis the Supplier will be paid. If payment for Materials on Site shall be made separately, the Supplier shall show delivery of Materials to the Site separately on the Activity Schedule. The nature of contract is specified in SCC.

.2 Changes in Contract Price:
1. In the case of an admeasurement contract:
(a) If the final quantity of the work done differs from the quantity in the Bill of Quantities for the particular item by more than 25 percent, provided the change exceeds 1 percent of the Initial Contract Price, the Project Manager shall adjust the rate to allow for the change.

(b) The Project Manager shall not adjust rates from changes in quantities if thereby the Initial Contract Price is exceeded by more than 15 percent, except with the prior approval of the Purchaser.

(c) If requested by the Project Manager, the Supplier shall provide the Project Manager with a detailed cost breakdown of any rate in the Bill of Quantities.

2. In the case of a lump sum contract, the Activity Schedule shall be amended by the Supplier to accommodate changes of Program or method of working made at the Supplier’s own discretion. Prices in the Activity Schedule shall not be altered when the Supplier makes such changes to the Activity Schedule.

.3 Variations:
(1) All Variations shall be included in updated Programs, and, in the case of a lump sum contract, also in the Activity Schedule, produced by the Supplier.

(2) The Supplier shall provide the Project Manager with a quotation for carrying out the Variation when requested to do so by the Project Manager. The Project Manager shall assess the quotation, which shall be given within seven (7) days of the request or within any longer period stated by the Project
Manager and before the Variation is ordered.

3. If the Supplier’s quotation is unreasonable, the Project Manager may order the Variation and make a change to the Contract Price, which shall be based on the Project Manager’s own forecast of the effects of the Variation on the Supplier’s costs.

4. If the Project Manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the Variation shall be treated as a Compensation Event.

5. The Supplier shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

6. In the case of an admeasurement contract, if the work in the Variation corresponds to an item description in the Bill of Quantities and if, in the opinion of the Project Manager, the quantity of work above the limit stated in Sub-Clause 16.5 or the timing of its execution do not cause the cost per unit of quantity to change, the rate in the Bill of Quantities shall be used to calculate the value of the Variation. If the cost per unit of quantity changes, or if the nature or timing of the work in the Variation does not correspond with items in the Bill of Quantities, the quotation by the Supplier shall be in the form of new rates for the relevant items of work.

Advance Payment:

1. The Purchaser shall make advance payment to the Supplier of the amounts stated in the SCC by the date stated in the SCC, against provision by the Supplier of an Unconditional Bank Guarantee in a form and by a bank acceptable to the Purchaser in amounts and currencies equal to the advance payment. The Guarantee shall remain effective until the advance payment has been repaid, but the amount of the Guarantee shall be progressively reduced by the amounts repaid by the Supplier. Interest shall not be charged on the advance payment.

2. The Supplier is to use the advance payment only to pay for Equipment, Plant, Materials, and mobilization expenses required specifically for execution of the Contract. The Supplier shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the Project Manager.

3. The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the Supplier, following the schedule of completed percentages of the Works on a payment basis. No account shall be taken of the advance payment or its repayment in assessing valuations of work done, Variations, price adjustments, Compensation Events, Bonuses, or Liquidated Damages.

Cash Flow Forecasts

When the Program, or, in the case of a lump sum contract, the Activity Schedule, is updated, the Supplier shall provide the Project Manager with an updated cash flow forecast.
.6 Price Adjustment

Prices shall be adjusted for fluctuations in the cost of inputs only if provided for in the SCC.

If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

Clause No. 17
Clause Heading Payment Terms
Sub-Clause No. 1 Payments:

(i) Payments shall be adjusted for deductions for advance payments and retention. The Purchaser shall pay the Supplier the amounts certified within the days given at SCC of the date of each certificate. If the Purchaser makes a late payment, the Supplier shall be paid interest on the late payment in the next payment.

(ii) If an amount certified is increased in a later certificate or as a result of an award by an Arbitrator, the Supplier shall be paid interest upon the delayed payment as set out in SCC. Interest shall be calculated from the date upon which the increased amount would have been certified in the absence of dispute.

(iii) Items of the Works for which no rate or price has been entered shall not be paid for by the Purchaser and shall be deemed covered by other rates and prices in the Contract.

.2 Payment Certificates:

(i) The Supplier shall submit to the Project Manager periodic statements of the estimated value of the work executed less the cumulative amount certified previously.

(ii) The Project Manager shall check the Supplier’s periodic statement and certify the amount to be paid to the Supplier.

(iv) The value of work executed shall comprise:

(a) In the case of an admeasurement contract, the value of the quantities of work in the Bill of Quantities that have been completed; or

(v) The value of work executed shall include the valuation of Variations and Compensation Events.

(vi) The Project Manager may exclude any item certified in a previous certificate or reduce the proportion of any item previously certified in any certificate in the light of later information.
.3 Compensation Events

(i) The following shall be Compensation Events:

(a) The Purchaser does not give access to a part of the Site by the Site Possession Date pursuant to GCC Sub-Clause 20.4.
(b) The Purchaser modifies the Schedule of Other Suppliers in a way that affects the work of the Supplier under the Contract.
(c) The Project Manager orders a delay or does not issue Drawings, Specifications, or instructions required for execution of the Works on time.
(d) The Project Manager instructs the Supplier to uncover or to carry out additional tests upon work, which is then found to have no Defects.
(e) The Project Manager unreasonably does not approve a subcontract to be let.
(f) Ground conditions are substantially more adverse than could reasonably have been assumed before issuance of the Letter of Acceptance from the information issued to bidders (including the Site Investigation Reports), from information available publicly and from a visual inspection of the Site.
(g) The Project Manager gives an instruction for dealing with an unforeseen condition, caused by the Purchaser, or additional work required for safety or other reasons.
(h) Other Suppliers, public authorities, utilities, or the Purchaser does not work within the dates and other constraints stated in the Contract, and they cause delay or extra cost to the Supplier.
(i) The advance payment is delayed.
(j) The effects on the Supplier of any of the Purchaser’s Risks.
(k) The Project Manager unreasonably delays issuing a Certificate of Completion.

(ii) If a Compensation Event would cause additional cost or would prevent the work being completed before the Intended Completion Date, the Contract Price shall be increased and/or the Intended Completion Date shall be extended. The Project Manager shall decide whether and by how much the Contract Price shall be increased and whether and by how much the Intended Completion Date shall be extended.

(iii) As soon as information demonstrating the effect of each Compensation Event upon the Supplier’s forecast cost has been provided by the Supplier, it shall be assessed by the Project Manager, and the Contract Price shall be adjusted accordingly. If the Supplier’s forecast is deemed unreasonable, the Project Manager shall adjust the Contract Price based on the Project Manager’s own forecast. The Project Manager shall assume that the Supplier shall react competently and promptly to the event.

(iv) The Supplier shall not be entitled to compensation to the extent that the Purchaser’s interests are adversely affected by the Supplier’s not having given early warning or not having cooperated with the Project Manager.
The Performance Security shall be provided to the Purchaser no later than the date specified in the Letter of Acceptance and shall be issued in an amount specified in the SCC, by a bank or surety acceptable to the Purchaser. The Performance Security shall be valid until a date 365 days from the date of issue of the Certificate of Completion in the case of a Bank Guarantee, and until one year from the date of issue of the Completion Certificate in the case of a Performance Bond.
